INTRODUCTION

The E-NJOINT™ Vaporizer is a high quality product allowing you to enjoy vaporizing dry herbs without burning the product. A fully automated temperature control system heats the heating chamber accurately up to 3 available temperature settings. High quality materials and technologies are applied in the E-NJOINT™ Vaporizers. Use your E-NJOINT™ Vaporizer for your daily vaporizing. The E-NJOINT™ Vaporizer is perfect for vaporizing of herbs resulting in dangerous (carcinogenic) fumes. Vaporize the essential oils, flavonoids and nothing else. Optimize the experience combining the E-NJOINT™ Vaporizer with E-NJOINT™ Wood Chargers and/or Canadoscope.

E-NJOINT™ taking vaping to the highest level...

MAIN FUNCTIONS

Your E-NJOINT™ Vaporizer is the result of many months of research and development. The operation of the E-NJOINT™ Vaporizer is simple and ergonomically. Just a single button allows you to Start, Stop and set the temperature of the heating chamber. No need to worry about an excess of fumes. Vaporizing is the process of heating herbs to the point where you release the essential components present in dry herbs. Fill the basket with dry herbs, place it in the vaporizer, close the cap and press start by pressing the button 3 times. Start inhaling the airborne components when the button turns green.

PREPERATION

Charge your E-NJOINT™ Vaporizer for at least 3 hours.The RED-illuminated E-NJOINT logo will flash during charging and will stop flashing when the battery is fully charged. Remove the lid by twisting it counterclockwise and pulling. The basket is filled with dry herbs. Use the packing tool, to gently pack the herbs. Use the packing tool, to gently pack the basket. Do not apply force or "over pack" the basket. If you want to vape wax, use basket No.2. Smear a 0.7 mm layer of wax on the inside of the basket and on the bottom of the heating chamber. After power on, make sure the vaporizer is positioned vertically during the heating process so the wax will flow into the basket and not directly into the vaporizer. If you want to vape oil, use basket No.3. Fill the basket with 0.5 ml oil. Do not exceed 0.7 ml drops maximum. Make sure not to overfill the baskets. Position the lid by pushing and turning the lid clockwise, closing the heating chamber. Do not use extreme force.

OPERATION (1)

After loading your herbs, wax or oil extracts (see Preparation page 8), push the power button 3 times to start the heating sequence. The power button LED will turn Blue indicating the chamber is being heated.

E-NJOINT™ Vaporizer has 3 temperature settings:

1) 185°C (365 F)
2) 200°C (392 F)
3) 215°C (419 F)

The memory of the vaporizer will remember the last temperature setting applied.

9

e-njoint

OPERATION (2)

If you do not need to change it, the temperature will increase slowly until the set temperature (185°C/ 365 F) is reached.

After Power on, push the button 1 time to select temperature setting **1** (185°C/ 365 F). During the heating process, the power button LED will flash Blue 1x indicating temperature setting 1 is selected.

After Power on, push the button **2 Times** to select temperature setting **2** (200°C/ 392 F). During the heating process, the power button LED will flash Blue 2x indicating temperature setting 2 is selected.

10

e-njoint

OPERATION (3)

After Power on, push the button 3 times to select temperature setting **3** (215°C/ 414 F). During the heating process, the power button LED will flash Blue 3x indicating temperature setting 3 is selected.

After the warming up period is completed (30-60 seconds) the power button LED will turn GREEN indicating the set temperature is reached and you can start to vape The vaporizer will automatically shut off after 300 seconds. The working time for each setting is 6 minutes.

You can turn off the vaporizer by keeping the button pressed in for 3 seconds. This can be done at any moment.

CHARGING (1)

The E-NJOINT™ Vaporizer has a rechargeable Lithium-Ion battery. We strongly advise to charge the E-NJOINT™ Vaporizer for at least 3 hours for the first charge. This will improve the lifetime of the battery.
After you charge the E-NJOINT™ Vaporizer for the first time, charge the device for 2 hours each time.
The RED-illuminated E-NJOINT logo will flash during charging and will stop flashing when the battery is fully charged.
When the vaporizer is powersave and the RED-illuminated E-NJOINT logo will flash 3x every 10 seconds indicating the battery is getting low.
A Powerbank is supplied with the Vaporizer. That Powerbank may be used at any time to charge your Vaporizer. Even during Vaporizing you can charge.
The Powerbank also has a flashlight function, allowing you to inspect the heating chamber properly.

CLEANING & MAINTANANCE (1)

Take care of your E-NJOINT™ Vaporizer and you will enjoy many years of the product. Cleaning and maintaining your device provides better performance.

Turn the power off when cleaning the vaporizer.
Remove the heating cup from the heating chamber.
Use the brush tool to gently clean the wall and bottom of the heating chamber.

Use a damp cloth to clean the outside of the vaporizer. Do not emerge in water!

The silicon mouthpiece can be completely removed from the vaporizer and can be cleaned with warm water.

TIPS & TRICKS

Do not pack the heating chamber too tight. Allow easy air flow throughout the dry herb. Do not apply any force when pulling in the dry herb.

Vaping is not smoking. Do not expect smoke like a cigarette to come out of your product. Smoke is bad for your health. You are vaporizing certain components present in or on dry herbs. Those components are to be vaporized and are not visible after being achieved.

Remove stems after grinding. Do not grind the herbs too much. Try to create a fluffy like mass where the air can circulate around every part.

16

e-njoint

WARNINGS

Do NOT fill the heating chamber with stems or seeds. Improper usage will cause damaging and/or incorrect functionality.
Do NOT fill the heating chamber with liquids, wax or oil. Wax should not be above the rim of the basket and extracted oil should not drip out of the basket when you hold the basket upside down.
Do NOT touch the basket and heating chamber within 1 minute after use. Let the components cool down prior handling.
Do NOT drop or shake the E-NJOINT™ Vaporizer roughly. No tapping on the table to remove dry herb.
Do NOT emerge the E-NJOINT™ Vaporizer in water or other liquid.
Do NOT use the E-NJOINT™ Vaporizer for other than its intended purpose.
Use only as intended. Do not experiment. When in doubt contact the supplier.
